HAIDER ALI

Junior Full-Stack Developer

Islamabad, Pakistan | +92 (319) 581-0608 | ha5743330@gmail.com

Portfolio: https://haider-portfolio-chi.vercel.app/ | GitHub: https://github.com/ha5743330-ctrl

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Junior Full-Stack Developer and recent Computer Science graduate with a strong passion for the MERN Stack (MongoDB, Express.js, React, Node.js). Demonstrated ability to build scalable, high-performance web applications, highlighted by designing and deploying a comprehensive remote management infrastructure. Proven expertise in integrating advanced real-time communication protocols alongside biometric security layers. Currently applying hands-on experience across multiple remote, part-time internships, demonstrating strong time management and adaptability.

PROFESSIONAL EXPERIENCE

Front End AI Engineering Intern — FlyRank AI (Remote, Part-time)

Jul 2026 – Ongoing (8-week program)

- Building and optimizing intelligent, AI-driven frontend components and user interfaces.
- Collaborating with the engineering team to translate UI requirements into functional React components.

Full Stack Web Development Intern — Arch Technologies (Remote, Part-time)

Jul 2026 – Ongoing

- Collaborating on full-stack web application features using modern JavaScript frameworks.
- Writing clean, maintainable code and participating in feature testing and code reviews.

Web Development Intern — DevelopersHub Corporation (Remote, Part-time)

Jun 2026 – Jul 2026 (Completed)

- Contributed to end-to-end full-stack development, feature testing, and debugging.

VOLUNTEER EXPERIENCE

Volunteer Department Intern — Alkhidmat Foundation Pakistan

Jul 2026 – Ongoing

- Assisting tech workflows and structural data management for community programs.

KEY PROJECTS

SmartSession — Remote Client Sessions Management System (Final Year Project)

- Built a production-grade full-stack WebRTC application (MERN stack) for real-time, low-latency remote session control using Socket.io.
- Integrated AI biometric layers featuring Face Recognition and Liveness Checking for multi-layered authentication.
- Set up automated testing and CI/CD pipeline (Jest, Supertest, GitHub Actions) for continuous verification on every push.
- Developed under technical mentorship of supervisor Ahsan Raees, receiving executive endorsement.

LeadGenie AI — Automated Sales Outreach Tool

- Built an AI-powered cold email generation tool using Llama 3.1 (via Groq Cloud API) and Streamlit, cutting email drafting time from approximately 15 minutes to seconds.

- Implemented a SQL-based logging system to track and audit generated outreach for performance review.
- Containerized the application with Docker for consistent deployment.

E-Commerce Full-Stack Web App

- Developed a full-stack e-commerce application with separate client and server architecture, deployed live on Vercel.
- Built using JavaScript across frontend and backend for a seamless shopping experience.

Personal Portfolio Website

- Designed and deployed a personal portfolio website (Vercel) to showcase skills, certifications, and project repositories.
- Built with a custom-themed, responsive UI to present projects and professional background to recruiters.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, HTML5, CSS3

Frontend: React, Streamlit

Backend: Node.js, Express.js

Database: MongoDB, SQLite

Cloud & Tools: AWS, Docker, Git, GitHub, GitHub Actions, Vercel

Core Concepts: WebRTC, Socket.io, Real-Time Communication, Biometrics, LLM Integration

EDUCATION

BS in Computer Science
PMAS Arid Agriculture University, BIMS Campus, Islamabad | 2022 – 2026 (Completed)

Intermediate (ICS)
Islamabad Career College, Bhara Kahu, Islamabad | 2020 – 2022 (Completed)

TRAINING

AI/ML Engineer Training — NAVTTC
3-month program | Coursework completed, certification pending

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals
Credential ID: 489BOF237EFEF991
Certification number: C84B5V-507467
Earned on: July 2, 2026
Validates proficiency in Machine Learning, Computer Vision, and Natural Language Processing.
